“the Gift of Vision Belongs to All...”

Eileen J. Garrett

The Parapsychology Foundation invites you to take an extraordinary journey of discovery by joining their newly formed PSYCHIC EXPLORERS CLUB.

The journey—like no other—will follow, throughout his-tory and across cultures, anomalous events that manifest in ways not yet fully understood: the realms of psychic phenomena.

Exploring the psychic realms, you will travel the course of science and other disciplines over the past century—a course marked by laboratory and clinical studies, and on-site ghost investigations. You will weigh the evidence of rigorous science against charlatans who exploit, and skeptics who dismiss, this potentially priceless human dimension.

Inspired by the philosophy of Eileen J. Garrett, world-renowned psychic and pioneer in parapsychological research, the PSYCHIC EXPLORERS CLUB requires no prior expertise. Rather, we encourage you to bring a sense of adventure, an open mind, and an innate curiosity about psychical manifestations and their meaning for mankind.

As a PSYCHIC EXPLORERS CLUB member, you will draw on Parapsychology Foundation's status as a leading nonprofit, worldwide clearinghouse for information in the field of parapsychology.

You will have primary access to the Foundation's resources:

- lectures and seminars by multi-disciplinary leaders in the field
- international conferences and seminars
- an acclaimed journal, pamphlets, videos and books published by Parapsychology Foundation

- a comprehensive website
- one of the world's largest libraries and audio/visual collections devoted to parapsychology, with publications from rare historical texts to cutting-edge research. You can participate in “psychic adventure” events; craft your own personal journey of exploration; and bring to the table your own concepts and understandings.

Once enrolled in the PSYCHIC EXPLORERS CLUB, you will receive:

- A membership card with your personal ID number
- A canvas tote bag with club logo
- Prenotification of Parapsychology Foundation events, new products and updates on research
